SUMMARY

Results-driven Developer with a strong foundation in Flutter, Node.js, and Python. Experienced in delivering deployed applications, from glassmorphic UI designs to robust backend integrations with Supabase and Node.js. Committed to engineering scalable digital environments and solving complex problems through code.

EXPERIENCE

Intern | SCORPTECH PVT LTD | KOLKATA, WEST BENGAL, India | June 2025 – August 2025

- Developed Python-based automation solutions from scratch to streamline repetitive operational workflows, significantly reducing manual effort and execution time.
- Built scalable and robust web scraping pipelines using Selenium, BeautifulSoup, and Pandas to extract structured data from both dynamic and static web sources.
- Optimized automation and scraping workflows, improving data collection efficiency by 70% through performance tuning and pipeline enhancements.
- Tech Stack:** Python, pandas, BeautifulSoup, Selenium.

Freelancer App Developer | Remote | October 2024 – November 2024

- Developed cross-platform mobile applications from scratch using Flutter and Dart, delivering clean, intuitive, and responsive UI/UX for Android platforms.
- Integrated RESTful APIs and backend services to enable seamless data communication, performing API testing and validation using Postman.
- Collaborated closely with clients to gather requirements, translate business needs into technical solutions, and deliver visually appealing, functional mobile applications within timelines.
- Tech Stack:** Flutter, Dart, Postman (API Testing & Validation).

PROJECT

Kalaakirti | Personal Project | January 2026 - Present

- Developed a modern Android application using Flutter that allows users to discover and set high-resolution wallpapers with a premium user experience.
- Implemented a visually stunning Glassmorphic UI, prioritizing smooth animations and a futuristic aesthetic.
- Integrated the Pexels API to providing access to thousands of high-quality, curated images with dynamic searching.
- Tech Stack:** Flutter, Dart, Supabase, Pexels API, Hive, Amazon Appstore.

Sampark | Personal Project | July 2025 – August 2025

- Built a real-time chat app using Flutter and scalable Clean Architecture.
- Used BLoC for state management and GetIt for efficient dependency injection.
- Integrated Firebase for instant messaging, secure auth, and cloud storage.
- Added advanced features like Voice Messaging and optimized media handling.
- Tech Stack:** Flutter, Dart, Firebase, BLoC, GetIt, Amazon Appstore.

EDUCATION

Bachelor of Engineering (Computer Science Engineering) | University Of Engineering & Technology | Chandigarh, India | 2023 - 2027

12th CBSE Board | Maharishi Arvind Public School | Kota, Rajasthan, India | 2023

SKILLS

Programming Languages: C, CPP, Dart, Python.

Front End: Flutter, HTML, CSS.

Backend: Node.js, NestJS(Currently Learning).

Data: MySQL, Supabase, Firebase.

Deployment: Github, Docker, Vercel, Firebase, Amazon AppStore.
